Rental Details

The Villa Champagne Shores exemplifies contemporary luxury refracted through Caribbean sensibility—a five-bedroom oceanfront sanctuary completely refurbished in 2018 by renowned New York designer Alexis Parent. The villa celebrates transparency: floor-to-ceiling windows, massive sliding glass doors, and architectural positioning create perpetual connection between interior comfort and exterior Caribbean light. Exotic tropical details, sophisticated textures, and color-rich palette surround guests without overwhelming; every design choice serves either beauty or function. The aesthetic is deliberately contemporary yet warmly inhabited—sophisticated but never cold, luxurious but never stuffy. This is modern architecture in service of Caribbean living.
