Dune House

Turks and Caicos, Caribbean, Long Bay

20 8 9.5

Rental Details

The Villa Dune House is a casually sophisticated beachfront estate on Long Bay Beach, where Belgian and Scandinavian design sensibilities meet the unhurried pace of the Caribbean. Designed by the architectural firm Blee Halligan, the villa's 6,000 square feet of interior space is organised around floor-to-ceiling glass sliding doors that dissolve the boundary between indoors and out — drawing the eye from the high-ceilinged living spaces outward to lush tropical gardens and the clear aqua water beyond.
