Rental Details

The Villa Cabuya is a generous and beautifully composed villa set within an exclusive gated community in Providenciales, where the design philosophy is simple: bring the outside in, and let the outside be extraordinary. Accommodating up to ten adults and four children across six well-appointed bedrooms, it strikes a balance between scale and intimacy that larger villas rarely achieve. The open flow between the living spaces and the surrounding gardens, pool, and waterfront creates a sense of effortless continuity — the kind of place where the boundary between indoors and out dissolves before you have fully unpacked.
