Rental Details

The Villa Clevelander is a quietly impressive beachfront estate set atop one of Long Bay's natural dunes, where contemporary architecture, expansive proportions, and warm, liveable interiors come together with remarkable ease. Completed in 2018, the villa was thoughtfully conceived to balance clean modern design with a softer sense of comfort and connection, resulting in a home that feels both architecturally striking and deeply welcoming.

Positioned across 2.24 acres with 160 feet of beachfront, the estate embraces its elevated setting through open sightlines, generous terraces, and a seamless relationship between indoor and outdoor living.
