Rental Details

The Villa Villa Umi is a contemporary beachfront residence on Long Bay Beach, designed with a strong architectural emphasis on light, openness, and connection to the surrounding landscape. Clean modern lines, expansive glazing, and a carefully considered three-level layout create a villa that feels calm, spacious, and deeply connected to the sea. The design centres around dual-aspect living, allowing natural light and ocean views to flow through the home from multiple directions. Interiors are elegant yet understated, with soft neutral tones and shaded spaces creating a sense of quiet relaxation throughout.
