Bajacu – Luxury Turks & Caicos Villa Rental Welcome to Bajacu, a dramatic six-bedroom Turks and Caicos villa rental perched on a south shore hilltop above its own private cove. Designed by the celebrated Mexican architect Marco Aldaco, Bajacu — meaning "rising sun" in island language — is less a villa than a destination, a place where sweeping 270-degree ocean views, organic architecture and the only fully private beach in the Turks and Caicos Islands combine to create something entirely singular.
