Rental Details

The Villa The combined Coco Rock Estate brings together Villa Julia and Villa Angelina to create an expansive eight-bedroom waterfront retreat designed for larger families and groups seeking privacy, flexibility, and refined contemporary living. Though seamlessly connected as a single estate experience, each villa retains its own architectural identity, private terraces, and distinct atmosphere, allowing guests to gather comfortably while still enjoying moments of separation and calm. Inspired by the natural geography and cultural heritage of the Turks & Caicos Islands, the estate's interiors blend textured materials, warm natural finishes, and carefully curated furnishings with elevated contemporary architecture.
