Rental Details

The Villa Brise de Mer Beach Villas combines the main beachfront residence and guest villa into a seamless six-bedroom estate designed for relaxed coastal living on Long Bay Beach. Contemporary yet understated, the architecture is intentionally shaped around the surrounding landscape, allowing uninterrupted ocean views, soft natural light, and the rhythm of the sea to define the atmosphere throughout the property. Vaulted ceilings, expansive openings, and open-plan living spaces create a calm sense of volume and flow, while the pairing of two independent villas introduces flexibility and privacy rarely found within a single beachfront estate.
