Rental Details

The Villa Alkera is a strikingly contemporary masterpiece dramatically positioned on a hillside overlooking Shoal Bay East, Anguilla's most celebrated beach. White-on-blue architecture captures the essence of Caribbean modernism: clean lines, expansive glass, and an infinity pool that dissolves into the horizon, appearing to spill directly into the turquoise waters below. This 10,000-square-foot sanctuary embraces the intoxicating location; every room, every angle, every moment frames the jaw-dropping beach panorama. The design is deliberately transparent—walls of glass rather than dividers—making the villa feel like an extension of the oceanscape itself.
