Rental Details

The Villa Antilles Pearl at Altamer rises like a ship in full sail above Shoal Bay West, commanding the island's most coveted stretch of white sand and crystalline water. This architectural marvel spans three floors of uncompromising luxury, where a 50-foot skywalk floats above the sea—a passage that perfectly captures the villa's philosophy: seamless integration of indoor elegance with the boundless Caribbean beyond. Every detail reflects the vision of an art curator based in New York, with carefully chosen pieces that honor both the architecture and the natural beauty surrounding them.
