Rental Details

The Villa Beaches Edge embodies ultra-modern architecture positioned directly on rocky oceanfront with panoramic views of St. Martin. Five bedrooms occupy impeccably designed spaces defined by clean lines, fine architectural detail, and deliberate material choices. Large windows maximize views; warm bamboo and wood touches prevent the contemporary minimalism from feeling cold. The entire villa radiates California-hills sophistication transplanted into Caribbean context: thoughtfully landscaped, strategically lit pools, careful attention to sightlines and spatial flow. The design achieves rare balance—luxury architecture that feels like genuine home rather than styled showpiece.
